MINING SHARES STILL RISE. Strong Demand from Investors for Both High and Low Grade Stocks.

The mining market was still booming upward yesterday. Buying, by investors, of mining stocks at the present low prices has removed large blocks of stock from this market and from Denver and Colorade Springs. Elkton and Portland, of the higher priced Cripple Creek stocks, has responded to this demand by showing sut stantial gains. The former sold yesterday share. Of the lower priced stocks Alamo.

"I admire, sir, the New York which you have made since my first visit, but I do not like it. You faiter under the wind which slaps you in the face, and then, you lose your eyesight.

"New Yorkers are not all blind, but they are all almost blind, and when the last of them shall have felt the extinction of the light in their pupils, they will not find little yellow dogs to lend them through the streets, for these will have become blind also.

Wall Street, Wednesday, June 16. The professional element worked almost manimously for a reaction to-day and such ceeded in forcing a fractional decline. The net result of the day's labors was at average decline of .166, or about 1-6 of per cent in ninety-five stocks traded in during the day. The majority of stocks snowed decline
